**Interview with Mrs. SUN Lihua technical president of new projects
CP Agro-food Enterprise, China - North Area**

What's your name and could you inform about your function in the company?

My name is SUN Lihua, the technical president for the new projects of CP Group Agro-food Enterprise (China) North Area, responsible for new project construction. Founded in 1921, CP Group operates across more than 10 industries with agro-food, commercial retailing and telecommunications as its core businesses in over 100 countries and regions. It has put down roots of agriculture, animal husbandry and food sectors in all provinces of China, covering the whole industry chain from planting, feed processing and sales, livestock and poultry breeding, commercial animal production, slaughtering & processing, and food deep processing and sales to convenience store retailing and etc.

How would you judge the cooperation with Falkenstein Projektmanagement GmbH?

It is a great pleasure to work with Falkenstein Projektmanagement GmbH. They has won world-wide recognition with its rich experience and international advanced concepts in designing. We have experienced its professional design service and rigorous approach of its designers and CP China wishes to establish and maintain a long-term and friendly cooperative relationship with Falkenstein.

Which kind of project do the CP Group plan in Hohhot?

CP Group plans to build one 3 million pigs integrated project in Inner Mongolia, including 300,000 mu green planting, dedicated feed mill with the annual capacity of 1.2 million tons, 3 million pigs production, 3 million pigs slaughtering and processing, 100,000 ton food deep processing, downstream cold chain logistics and 1,000 new retail stores. We cooperated with Falkenstein Projektmanagement GmbH on the designing of our pig slaughtering and processing plant.

Is there anything that you particularly liked?

Falkenstein Projektmanagement GmbH has impressed us with the following qualities during our cooperation:
1. Concept of Design: As the top design company in the industry, Falkenstein Projektmanagement GmbH brings us more breakthroughs with innovative designs, meeting well the demand for high-end and cutting-edge design of CP projects.
2. Sense of Principle: Falkenstein Projektmanagement GmbH has a strong sense of principle. While full-filling our expectations at length, it also adheres to its own professional perspectives, which is very uncommon when compared with other designing companies.
3. Efficiency: Falkenstein Projektmanagement GmbH can complete the design right after receiving updates of our demand and always deliver designing plan before the specified deadline.

How did you become aware of the Falkenstein Projektmanagement GmbH as planning office?

Falkenstein Projektmanagement GmbH is international renowned, and its strong designing capability is further recognized by CP after CP's visit to Germany and its many designing projects.
